High Octane® Fitter® 35 is a high protein, low energy formula designed to help maintain muscle definition during a period of high caloric intake. Safe for all species, High Octane® Fitter® 35 can be used to improve or maintain leanness over an extended period of time, particularly when animals are not being limit-fed. Works to remove fat from front to back, trim up the front-end, restore femininity, and “amp-up” overall shape in all species.
