Calcium (Ca), (Max)	3.75%
Phosphorus (P), (Min)	1.00%
Salt (NaCl), (Min).....	2.25%
Salt (NaCl), (Max).....	2.75%
Selenium (Se), (Min).....	5.00 ppm
Vitamin A (Min)	30,000 IU/lb

Directions:

Purina® Accuration® Sheep & Goat R+R Block is scientifically formulated to be fed free-choice to sheep and goats along with forage and grain.

1. Consumption of Purina® Accuration® Sheep & Goat R+R Block should be approximately 0.25 to 0.75 pounds per head per day.
2. Provide one 200-pound block for each 25 to 40 head.
3. Several weeks prior to feeding Purina® Accuration® Sheep & Goat R+R Block, provide a good quality mineral supplement that contains phosphorus.
4. Purina Accuration Sheep & Goat R+R Block provides complete mineral nutrition for life stages including maintenance, breeding and early gestation. For life stages such as rapid growth, late gestation and lactation, supplemental nutrition may be necessary to meet requirements. Please work with your nutritionist in these situations.
5. Adequate forage should be provided at all times.
6. Do not offer Purina® Accuration® Sheep & Goat R+R Block in fields where crops are grown that are known to contain high levels of urease enzyme such as soybeans or in conjunction with other NPN containing feeds.
7. Feed blocks near the area where animals loaf and/or a water source.
8. In large pastures or lots, blocks should be available in more than one location.
9. If animals run out of blocks, observe them closely for three days to prevent overconsumption after refeeding.
10. Provide an unlimited supply of clean fresh water.

Check your current price list for availability in your region, or contact your local Purina Retailer or Representative for more information.
