

Purina® Game Bird Flight Conditioner

Purina® Game Bird Flight Conditioner supports muscle and feather development in preparation for breeding or release on game preserves.

Developed specifically for flying game birds

Formulated to build strength and feather density.

Supports optimal flying and proper bodyweight

High protein, low energy diet for feather and muscle development.

Optimum levels of amino acids and salt

Proper blend of amino acids and salt help suppress aggressive behavior and cannibalism.

Colorful feathering and optimal bird health

Targeted amino acids, vitamins, and essential minerals for beautiful feathering and immune support.

Easy-feeding crumbles

Crumble form to encourage feed intake while providing complete and balanced nutrition in every bite.

FEEDING DIRECTIONS

Feed Purina® Game Bird Flight Conditioner feed as sole ration from 42 days to condition birds to be kept for pets, breeders or for resale. Adult birds may be kept on Game Bird Flight Conditioner or switched to Purina® Game Bird Maintenance feed to limit weight gain in colder weather.
