

PURINA® 30% PROTEIN TUB

Specie: Beef

Type of Feed: Supplement

Form of Feed: Tub

General Description: A 30% protein controlled consumption cattle tub. Purina® 30% protein cattle tubs are free choice supplements designed for beef cattle on medium to high quality forage diets (over 8% protein). The low moisture, cooked molasses product comes in a non-returnable plastic container that will enhance intake and utilization of available forages, while reducing labor for producers.

FEEDING DIRECTIONS:

Purina® 30% Protein Tub is designed to be self-fed to beef cattle consuming fair or better quality forage. Consumption of this supplement will vary depending upon the condition of the animals, quality and quantity of forages being fed and seasonal weather conditions. Cattle typically will consume from 0.5 to 1.0 pound per head per day.

Feed one tub per 5-10 head of cattle and at least 2 tubs per pasture to ensure adequate intake by younger, timid animals. Place the tubs within 100 feet of where animals congregate (loafing, grazing, feeding and watering areas). Feed tubs continuously along with plentiful sources of forage and fresh, clean water. Cattle will consume approximately 1/2 to 1 pound of this supplement per head daily. If additional

FEEDING DIRECTIONS (CONTINUED):

mineral and vitamin fortification is needed, provide a nutritionally balanced mineral/vitamin supplement

containing salt. This product does not contain added salt; therefore supplemental salt should be offered at all times.

MANAGEMENT TOOL NOTE: Placement of tubs can influence grazing distribution in large pasture situations. Place tubs in areas of under-utilization in order to entice cattle to specific locations within a pasture. Consumption rate depends on location of the tubs with respect to loafing, grazing, feeding and/or watering areas. Also consider animal condition, forage quality and quantity and seasonal weather conditions. If over consumption occurs for more than two weeks despite tub repositioning, remove tubs and evaluate overall feeding program.

INTRODUCTORY PERIOD: During the first week of use, place tubs within 100 feet of the loafing and/or watering areas. As animals become accustomed to the presence of the tubs, some repositioning may be necessary. Move the tubs closer to increase consumption, further away to decrease consumption. **DO NOT PROVIDE STARVED ANIMALS FREE ACCESS TO THIS SUPPLEMENT.**

CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

Available Options:

Product	Product No.	Package	Size
Purina® 30% Protein Tub	0049132	Plastic Tub	60 Pounds

*Must be fed according to feed label. Please see Purina® representative for information on individual product options and availability.
